About Us

About Dubai Diagnostics for Pharmaceuticals and Medical Supplies. Dubai Diagnostics is a pioneering company specializing in innovative medical solutions in cardiac catheterization, open-heart surgery, and structural heart interventions. Our Core Expertise:

Adult and Pediatric Cardiac Catheterization: Introducing cutting-edge technologies, including being the first to bring TAVI (Transcatheter Aortic Valve Implantation) to Yemen. **Cerebral and Peripheral Catheterization:** Providing advanced solutions with a focus on TEVAR and EVAR procedures. **Open-Heart Surgery:** Leading in cardiac care through the introduction and localization of tissue valves, making us pioneers in this field in Yemen. We are committed to a patient-centric approach, offering world-class products that improve patient care and empower healthcare professionals. Our partnerships with global manufacturers ensure access to reliable and innovative solutions that meet the highest international standards. In addition, we run continuous training and development programs both locally and internationally, aimed at enhancing the skills of doctors and technicians. These programs are an integral part of our professional, humanitarian, and business mission to elevate healthcare standards.

what we do ?

We're a partner with related parties to import and distribute products designed to help patients live longer, healthier, and more productive lives. We focus on medical technologies that address large and growing patient populations in which there are significant unmet clinical needs.

Our History

Our company established on March 16th, 2015, with a commercial registered No.(2015010233) issued by the Ministry of Trade and Industry in Yemen (168642), tax number (168642). We are also a member in Chamber of Commerce No. 3753.

Our Customers

At Dubai Diagnostic, our success is built on the strong partnerships we have cultivated over the years with our most valued customers, particularly key account clients in both the public and private sectors. We now proudly serve over 200 institutions, including government entities, private organizations, and civil society groups, fulfilling their needs in cardiology, vascular care, critical care, and diabetes management. Our distribution network spans various governorates across Yemen, ensuring timely delivery and exceptional service. Our ultimate goal is to ensure customer satisfaction and to maintain and strengthen these trusted partnerships for years to come.

Our Team

The company's leadership partners with employees to achieve our goals and lofty principles. This team is also partnered with experts and honorary consultants to advise and guide to achieve tangible results. Everyone is passionate about helping patients and meeting their needs.

Our Partners

Bilakhia Group Brings You World-Class Healthcare Solutions

Founded in 2006, Meril is an India-based, global medical device company that is dedicated to the innovation, design and development of novel, clinically relevant and state-of-the-art devices. As a leading healthcare solutions company, our fundamental aim is to champion the alleviation of human suffering and improve quality of life. To enable this, we are committed to R&D, innovation in manufacturing medical technology, scientific communication, and contemporary distribution avenues.

Meril was established by the Bilakhia Group, to improve the quality of human life through innovative and advanced healthcare solutions. As a medical device manufacturer, we strive to improve the inventiveness in healthcare so that people's lives are enriched. We continually seek excellence in providing answers to some of medicine's toughest questions.

Headquartered in India with a manpower of more than 4000, Meril, by Bilakhia Group, currently conducts business in more than 100 countries. We have 100% subsidiaries in India, USA, Germany, Brazil, Russia, South Africa, Bangladesh and Turkey. We have set up operations in China and Japan too.

Terumo is a global medical device company originating from Japan. We pursue reliable quality and technology to contribute to healthcare in more than 160 countries and regions around the globe. At Terumo, we reduce patients' difficulties both mentally and physically, while delivering solutions that help solve various issues in medical settings.

We promise to walk alongside healthcare professionals to continue to make great contribution to society, now and into the future.

Terumo is a global leader in medical technology and has been committed to "Contributing to Society through Healthcare" for 100 years. Based in Tokyo and operating globally, Terumo employs more than 30,000 associates worldwide to provide innovative medical solutions in more than 160 countries and regions. The company started as a Japanese thermometer manufacturer, and has been supporting healthcare ever since. Now, its extensive business portfolio ranges from vascular intervention and cardio-surgical solutions, blood transfusion and cell therapy technology, to medical products essential for daily clinical practice such as transfusion systems, diabetes care, and peritoneal dialysis treatments. Terumo will further strive to be of value to patients, medical professionals, and society at large.
