WHO WE ARE

Dubai Diagnostic is a Yemen-based healthcare solutions company established in 2015, specializing in advanced minimally invasive cardiac and neuro-interventional technologies.

We connect international medical innovation with clinical needs in Yemen through professional distribution, clinical support, physician training, market development and long-term partnerships.

Our work is built around specialized medical technologies where product quality, clinical expertise and professional implementation are essential.

01

OUR PRESENCE IN YEMEN

02

Two principal branches:
Sana'a and Aden

200+ healthcare institutions, hospitals
and distribution points.

Established presence in the Yemeni
healthcare market since 2015.

Strategic relationships with health-
care professionals, hospitals and spe-
cialized centers across Yemen.

Our local presence combines com-
mercial reach with clinical engage-
ment and ongoing support.

STRUCTURAL HEART OUR CLINICAL MILESTONE

In August 2024, Dubai Diagnostic launched transcatheter heart valve implantation in Yemen.

Since the first case, the program has supported more than 100 valve implantation procedures.

Dubai Diagnostic remains the only provider currently delivering this program in Yemen.

Our Structural Heart work extends beyond product supply to clinical program development, physician engagement, case support, training and research-oriented collaboration.

KEY FOCUS

TAVI
transcatheter aortic
valve implantation

Transcatheter repair
therapies

Mitral & congenital
interventions

Advanced catheter-
based structural heart
technologies

OUR CORE CLINICAL AREAS

STRUCTURAL HEART

TAVI • TRANSCATHETER REPAIR • MITRAL • CONGENITAL

INTERVENTIONAL CARDIOLOGY

Advanced coronary and catheter-based technologies

ENDOVASCULAR INTERVENTIONS

Peripheral and vascular technologies

NEUROINTERVENTION

Neurovascular and minimally invasive neurointerventional solutions

CARDIAC SURGERY

Specialized surgical and cardiac technologies

CRITICAL CARE & ECMO

Perfusion, heart-lung machine and extracorporeal technologies

DIABETES & INTENSIVE CARE

Glucose management and intensive-care solutions

OUR INTERNATIONAL PARTNERSHIPS

we build focused partnerships with international medical technology companies according to clinical need, product quality, regulatory suitability and long-term market potential.

Neurointerventional / Neurovascular Technologies

BEYOND DISTRIBUTION

Dubai Diagnostic operates as more than a conventional medical device distributor.

CLINICAL SUPPORT

Engagement with physicians and healthcare institutions around product implementation and clinical use.

PHYSICIAN TRAINING

Product education, workshops, hands-on learning and international training opportunities.

PROGRAM DEVELOPMENT

Supporting hospitals and medical teams in developing specialized clinical programs.

MARKET DEVELOPMENT

Professional product introduction, clinical positioning and sustainable adoption.

TECHNICAL SUPPORT

Reliable product-related coordination and after-sales support.

PARTNERSHIP MANAGEMENT

Connecting international manufacturers with healthcare providers and clinical teams in Yemen.

CLINICAL, RESEARCH & PHYSICIAN NETWORK

07

Our work is strengthened by strategic relationships with physicians and researchers in Yemen and internationally. Our professional network spans:

- Interventional and non-invasive cardiology
- Cardiac surgery
- Neurointerventional medicine
- Neurosurgery

We place particular importance on the clinical and research dimension of healthcare development, supporting knowledge exchange, scientific collaboration, clinical education and the responsible introduction of advanced technologies.

08

OUR APPROACH

01 — IDENTIFY

Understand real clinical needs and healthcare priorities.

02 — EVALUATE

Assess clinical value, quality, regulatory suitability and practical applicability.

03 — PARTNER

Build long-term relationships with manufacturers aligned with our standards and market needs.

04 — INTRODUCE

Support responsible market entry through professional positioning, education and clinical engagement.

05 — DEVELOP

Continue supporting adoption through training, clinical coordination, technical support and partnership management.

WHY DUBAI DIAGNOSTIC

A local partner with specialized clinical focus and international reach.

- Established in Yemen since 2015
- Principal branches in Sana'a and Aden
- 200+ healthcare institutions, hospitals and distribution points
- Specialized expertise in Structural Heart and minimally invasive cardiovascular care
- More than 100 transcatheter heart valve implantation procedures supported since August 2024
- Strategic relationships with physicians and researchers in Yemen and internationally
- International partnerships across Europe and Asia
- Clinical support, training, market development and technical coordination
- Commitment to quality, responsible market development and long-term partnership

Our objective is simple: to help international medical technology companies build sustainable clinical and commercial presence in Yemen.
